Dear Mr. Milbank;

I am enclosing the photograph of your Metapontum coin of which we took a cast. As I told you at the time, I would have to wait until I had some photographing done, hence the delay.

Very truly yours,

Dear Mr. Milbank:

I am sending you under separate cover
photographs taken of the coins you left a while ago. I
am keeping the coins in my vault. In case I should be arrested
you come, Noe or Robertson I think can dig them out.

Very truly yours,

June 24, 1931.

Dear Milbank:

Please pardon the delay in getting the print of the Carthaginian coins to you, as I have held this up trying to find the other negative that had the Metapontum and other coins on. So far I have not been able to locate it. If and when I do, I will have a print made for you. In the meantime, I am sending this one print.

Very truly yours,
